City/State/Zip/Country

Telephone

List Co-Investigators' names and positions

Indicate type of funding requested (Trainee
Award; Investigator-Initiated Proposal; RFP)

Title of Project

Submission Date

Proposed Start and End Dates

Funding Amount Requested

Project summary (one short paragraph)

Please attach:

Biographical Sketch. Use the most current National Institutes of Health form for each investigator.

Proposal (no more than 4 pages, single-spaced, no less than 11 pt font), which includes the following:

- **Abstract and Specific Aims.** (No more than 1 page)
- **Significance to Moebius Syndrome Population.**
- **Approach.** Describe the research strategy, methodology, and analyses.

Budget. Please attach a budget. See the Moebius Syndrome Foundation Grants Policy guidelines for allowable costs.

Letters of support. A letter of support is required for Trainee Award applications. This letter should come from the mentor/supervisor and should describe the mentor's plan to supervise and collaborate with the trainee. Letters of support are optional for other funding mechanisms, but recommended when external resources are needed to complete the project, such as external data collection sites or consultants.
